

## Advanced Medication for the Blues

She's never cold she's always hot  
She gives the feeling that she's got  
A lot of what it takes to get along  
When the night is burning down  
She dresses up and goes to town  
Like the coolest thing that's  
Never been wrong  
She's my soul inspiration  
Advanced medication for the blues

When we get up in the morning  
With the telephone alarming  
She keeps the bill collector in line  
Sets the percolator for a half an hour later  
And the coffee stops on a dime  
I pledge my love and dedication  
She's advanced medication for the blues

If I have heart attack  
I know she can bring me back  
The the heeling little angle she is  
If I need little money she slips a couple twenties  
In my pocket and nails me a kiss  
She ain't no impersonation  
She's advanced medication for the blues

All I want all I need  
Better than a pill to pick me up to speed  
She makes no reservation she's my final destination it's true

Now when I see her standing there  
With the way she cuts her hair  
I'm an animal with a mission in life  
When she turns her pretty head  
It's enough to raise the dead  
I'm telling you you can't cut it with a knife  
She's a maximum creation  
She's advanced medication for the blues

All I want all I need  
Better than a pill to pick me up to speed  
She makes no reservation she's my final destination it's true  
And without a hesitation I'll reveal the revelation  
She's advanced medication for the blues
