

Don't Count Us Out

nine o'clock in the morning
never got to sleep last night
we agreed to disagree
you say black and i say white

now don't leave me hanging
i'd hate if you walked out now
i believe we can make it without a doubt
don't count us
don't count us out

one time in a million
two people love the way we do
three words i swear i heard
said forever i'll be loving you

now don't leave me hanging
i'd hate if you walked out now
i believe we can make it without a doubt
don't count us
don't count us out

now don't leave me hanging
i'd hate if you walked out now
i believe we can make it without a doubt
don't count us

don't count us out
i'd hate if you walked out now
i believe we can make it without a doubt
don't count us don't count us out
