

Give Me All Your Love

Girl

Give me all your love

Do baby do baby do baby

All of your love

I want to hold you so

You'll never let me let you go

Girl don't you know

How I've been wanting you so

Girl

Don't shy away from me

No baby no baby no baby

Please don't shy away from me

We can reach up and hold

Stars like diamonds and gold

If you will be

The one here with me

The Mississippi River in Springtime

Is nothing if not unique

Reports of over a thousand Loch Ness Monsters

Just last week

Floating along the surface

From out of the north they storm

Lovers on the shore don't notice

Their thoughts are too highborn

A world

Waits for you and me

Oh baby oh baby oh baby

Oh don't you see

There is no place we can't choose

There is no gate we can't use

No sad avenues

No way we can lose
