

Hard Enough

It's hard enough
To get up in the morning
And worry bout the nine to five
Hard enough
To make it past people
Who don't care if you're dead or alive
Hard enough
To get your hands on a dollar
And stretch it like you got to do
Hard enough baby just to do it
Don't let me do it without you

It's hard enough
To keep it all together
When you feel it falling apart
Hard enough
To care about people
In a world without a heart
Hard enough
To know where you're going
With the whole world pulling at you
It's hard enough baby just to do it
Don't let me do it without you

Roll me easy
Nice and slow
I can face this world
If I have you to hold

It's hard enough
To play by the rules
When they change em
All of the time
Hard enough
To do your own thing
When they want you walking the line
Hard enough
To keep your eyes on the prize
With so much blocking the view

It's hard enough baby just to do it
Don't let me do it without you

Roll me easy
Nice and slow
I can face this world
If I have you to hold

It's hard enough
To get up in the morning
And worry bout the nine to five
Hard enough
To make it past people
Who don't care if you're dead or alive
Hard enough
To get your hands on a dollar
And stretch it like you got to do
Hard enough baby just to do it
Don't let me do it without you

Hard enough baby just to do it
Don't let me do it without you
Hard enough baby just to do it
Don't let me do it without you
