

I Know An Angel

I know an angel
She' got the darkest brown eyes
She doesn't how to be unfaithful
She doesn't know how to tell lies

I know an angel
She's been sent from up above
She's got a halo and wings and all the things
She touches understands love

I'm not gonna give you her number
I'm not gonna tell you where to call
I'm not gonna take you to her door tonight
Cause I want her all
I want her all to myself
I want her all to myself

I know an angel
And I wish she was in control
We wouldn't have nothing to be fighting about
And all have a little peace in our soul

I'm not gonna tell you where to find her
Even with my back against the wall
I'm not gonna tell you where she is tonight
Cause I want her all
I want her all to myself
I want her all to myself

I know an angel
I know she loves me
She is good for me I know
I am not gonna let her go

I'm not gonna give you her number
Even though it oughta be against the law
I'm not gonna take you to her door tonight
Cause I want her all
I want her all to myself

I want her all to myself
I want her all to myself
I want her all to myself
I want her all to myself
