

## I Pick You

When the nights are blue  
And the days  
Pass you by too  
Please remember this  
Over all the rest  
I pick you

Lay your head  
On my chest  
I pick you  
Over all the rest

There may always be uncertain times  
Times that put you to the test  
But when we have those hurting times  
Because we have each other  
We'll always be blessed

When a dream falls through  
And it breaks  
Your heart in two  
Please remember this  
Over all the rest  
I pick you  
Over all the rest  
I pick you
