

One Up One Down

I been lonely too long
Thought you knew what I been going through
I been lonely before
But not like this and not over you

Love takes time
And I hate the way it's stealing mine
Walking out and leaving me
A victim at the scene of the crime

One up one down
That's the way you make it
One lost one found
I don't think I can take it
If you're not around
I ain't never been attracted like this
Or so addicted I can't quit
And you sit there safe and sound
One up one down

I been trying to please
I have done everything I know
I been down on my knees
But you don't care and you let it show

Love must be blind
And it looks like I won't ever find
A place in your heart
Where out of sight is out of mind

One up one down
That's the way you make it
One lost one found
I don't think I can take it
If you're not around
I ain't never been attracted like this
Or so addicted I can't quit
And you sit there safe and sound
One up one down

One up one down
That's the way you make it
One lost one found
I don't think I can take it
If you're not around
I ain't never been attracted like this
Or so addicted I can't quit
And you sit there safe and sound
One up one down
