

california coast line (at least for a while)

*i'm on the california coast line soaking up the atmosphere
making guacamole gonna have it with modelo beer
i hope that it's a long time before i'll be leaving here*

*i'm on the california coast line watching all the fish swim by
there's a island over yonder i can see the sea lions drip dry
i believe that it's time i can kiss my troubles good bye*

at least for a while

at least for a while

there ain't nothing coming up

to mess with my free style

i'm sitting on the coast line

with a california smile

i'm going kinda connoisseur tasting me some good fine wine

stretched out laid back right along the water line

i'm thinkin' to myself ain't the california weather fine

at least for a while

at least for a while

there ain't nothing coming up

to mess with my free style

i'm sitting on the coast line

with a california smile

i'm sitting on the coast line in the california sun

i don't need the lottery i feels i already won

i didn't think it possible for me to ever have such fun

at least for a while

at least for a while

there ain't nothing coming up

to mess with my free style

i'm sitting on the coast line

with a california smile
