

in my dreamworld

in my mind i've already kissed your lips

we've been together and talked about a lot of nice trips

i have rubbed your shoulders toes and fingers too

held your body close to mine and danced the whole night through

and i've made sure that you're all diamonded and pearled

'cause girl you got it made

yes you got it made

girl you got it made

in my dreamworld

in my mind i am not so terribly shy

i walked over to you and then i simply said hi

you smiled as i offered to buy a drink for you

we sat and talked for hours and both enjoyed the view

the magic of the night around us swirled

'cause girl you got it made

yes you got it made

girl you got it made

in my dreamworld

*in my mind you're not getting ready to go
the cafe ain't closing and i do have something to show
for staying here all evening to watch the night spin by
you with your friends talking
me with you in my mind's eye
'cause that's the way my crazy mind is curled
'cause girl you got it made
and girl i got it made
yes we got it made
in my dreamworld*
