

it don't matter

these days i'm a nervous wreck

trying to live my life so politically correct

don't stand here don't smoke over there

drink bottled water don't breathe the air

world so crowded you can't hardly move

everywhere you go you get a bump in your groove

well people relax i got some good news

let me tell you what all the cajuns like to do

down in louisiana it don't matter

if you're sane as a judge or mad as a hatter

people down there don't ever stay blue

'cause they just ate or their fixin' to

party all night if it makes you feel right

the big easy knows you got to let go

skinny or fatter natty or tattered

down in louisiana it don't matter

down in louisiana it don't matter

*let me tell you how it is in new orleans
life revolves around a lots of rice and beans
people like to talk and tell what they mean
they always have a smiling face for everyone it seems
live and let live is the way that they do
have your neighbor over for some alligator stew
crawfish etouffee rockin' dopsie plays
next thing you know all your troubles fly away*

*down in louisiana it don't matter
if you're sane as a judge or mad as a hatter
people down there don't ever stay blue
'cause they just ate or their fixin' to
party all night if it makes you feel right
the big easy knows you got to let go
skinny or fatter natty or tattered
down in louisiana it don't matter
down in louisiana it don't matter*
