

texas blues

well the wind don't blow about once a year

all the rest of the time it's always here

around once a year that river's high

and except for then that river's dry

ain't no blues like the texas blues

ain't no blues

ain't no blues like the texas blues

i was driving my car through houston town

now that's one big place to get around

and my car lost its thermostat

and my motor froze just like that

now the heat outside was a burning hot

and that 'ol toll road was a parking lot

now to look for help it ain't no crime

unless you do it at drive time – drive time

ain't no blues like the texas blues

ain't no blues ain't

no blues like the texas blues

*well I asked my friends from dinero
how far it is to el paso
well he thought about it as he scratched his nose
and then he just said nobody known*

ain't no blues like the texas blues

ain't no blues

ain't no blues like the texas blues

i's at this bar and drinking beer

when cigarette smoke started making me tear

it led me to say an off color word

and this guy named tex he overheard

he said hey man there's ladies here

stop saying those things they ought not hear

so it's ok I said halfjoking

for me to be all up in here choking

but it I cuss this poisonous gas

then you tell me you're gonna whip my ass

ain't no blues like the texas blues

ain't no blues

ain't no blues like the texas blues
