

*the best day*

*even i have to admit it*

*something great has been going on*

*ever since i got up this morning*

*it's been happening all day long*

*when i add it all together*

*including but not limited to*

*the ocean and friends cold beer and warm winds*

*and looking up and seeing you*

*so if nothing bites my leg off in the next five minuets*

*and i don't drown in the sea*

*i'm gonna go ahead and say*

*this is the best day*

*that's ever happened to me*

*we all pooled our money together*

*and made a lot of sangria wine*

*put the ipod classic on shuffle*

*turned off the cell phones and the land lines*

*everyone who said they might come made it  
and i believe we would all agree  
by the end of the day each in our own way  
had achieved immortality*

*every now and then if you let it  
everything will be ok  
don't stop and look back or regret it  
just have yourself a very best day*

*so if nothing bites my leg off in the next five minutes  
and i don't drown in the sea  
i'm gonna go ahead and say  
this is the best day  
that's ever happened to me*
