

*trouble woman*

*you made me laugh and you make me cry*

*tell me that you love me when you know you lie*

*give me kisses in the afternoon*

*by evening you're the creature from the black lagoon*

*oh trouble woman*

*i wanna tear this hell house down*

*i can't keep on using*

*the stuff that you been bringing around*

*you say you'll be there but you never come*

*go lookin' for attention till you get you some*

*i'm hiding out oh baby high and low*

*but you keep finding me no matter where i go*

*oh trouble woman*

*what ever made you have this plan*

*the way you stay in trouble*

*sometimes you act just like a man*

*clothes are scattered all across the floor*

*i could straighten up but i don't know what for*

*you don't care about a thing i do*

*it's plain you're only looking out for you know who*

*oh trouble woman*

*why don't you go and let me be*

*you got so many options*

*and i got is me*
