

## All I Wanted

I've seen the star shine  
i've seen the sun shine  
i've seen it all shine on you

but now the cold wind  
i feel it come it  
i feel my love affair with you  
is over

i could've had my life arranged  
so many ways  
i could've been somewhere  
else today

but all i wanted was you  
all i wanted was you  
all i wanted was you  
and now we're through

outside my window  
i see the same glow  
of the streetlight  
and the sign

i feel the same way  
just like the first day  
i thought your love  
would be all mine forever

i didn't know the pain that comes  
when love is gone  
i didn't know it would  
be this strong

all i wanted was you  
all i wanted was you  
all i wanted was you  
and now we're through

the world was something  
but now it's nothing  
it's like the sun stopped shining through

all i wanted was you  
all i wanted was you  
all i wanted was you  
oh didn't i baby

all i wanted was you  
all i wanted was you  
all i wanted was you  
all i wanted was you....
