

## Anything Else

Gimme a lonesome song to holler  
wear'n a two ten dollar tie  
i'd take em to the river bed  
get em drunk on wine  
pat em on the belly and sit em up straight  
and sing em all the time

gimme a long haired green eyed woman  
like i never never seen  
i'd take her t the countryside  
deck her out in calico  
chase her around a little mulberry bush  
to get to whisper to her soft and low

i don't believe there's anything else i need  
i don't believe there's anyone else i can use  
less it's you and it's i'm gonna be with

gimme a lonesome song yeah  
gimme a green-eyed woman  
i don't believe there's anything else i need  
i don't believe there's anyone else  
but you less it's you and it's you i'm gonna to be with

gimme a long haired green eyed woman  
like i never never seen  
i'd take her t the countryside  
deck her out in calico  
chase her around a little mulberry bush  
to get to whisper to her soft and low

gimme a lonesome song to holler  
wear'n a two ten dollar tie  
i'd take em to the river bed  
get em drunk on wine  
pat em on the belly and sit em up straight  
and sing em all the time
