

Firefly

Firefly

evening is just around the bend  
when my day's gone  
your flight just begins  
lonesome i am  
so firefly won't you please  
let your little light  
shine on down  
let it shine on me

firefly

rest'n over in the tree  
i wish  
you would come and sit with me  
i could  
hold you so gentle in my hand  
until it's time  
you to fly  
fly away again

firefly oh

and i had a gypsy once like you  
she'd bright'n up the dark  
but gone she is away for me  
and i'm so lost and firefly blue

firefly

fly high until the night is gone  
when you  
bed down at the crack of dawn

be sure  
and tell the misses i said hi  
good luck  
keep straight i'll see you bye and bye  
firefly  
firefly oh

and i had a gypsy once like you  
she'd bright'n up the dark  
but gone she is away for me  
and i'm so lost and firefly blue

firefly  
evening is just around the bend  
when my day's gone  
your flight just begins  
lonesome i am  
so firefly won't you please  
let your little light  
shine on down  
let it shine on me  
oh right
