

## Sad Song

you cheated constantly  
i took it like a friend  
you made me a fool  
in front of everyone  
you told me lies enough  
to fill a hundred years  
but baby i been down this way before  
yeah baby i been down this way before

you used to frighten me  
then call it a surprise  
and then you'd laugh at me  
for tremble'n  
and then you'd take the time  
to whisper i love you  
but baby i been down this way before  
yeah baby i been down this way before

i never ask of you  
because i loved you so  
i gave you all the pride  
i used to have  
still you would smile to say  
you had another man  
but baby i been down this way before  
yeah baby i been down this way before

i don't know how you thought  
i'd always be around  
what made you think my nerves  
could never bend  
you've made me like i am  
by how you used to be  
but baby i been down this way before  
and i ain't go'n down there anymore
