

Tell Me 'Bout College

You don't have to be afraid
now go ahead and speak
i just wanna have some fun with you
maybe i can turn you on Richard Brautigan
and if you get comfortable
i might lay you on a shady green
and you can tell me 'bout college
and i'll tell how it is to be free

music takes me everywhere
i see most every kind
very few will stop and look a stranger
straight in the eye
ah but when it come it's magic
when two people take a try
and do what they want to do
'stead of being insecure and run
'cause half the fun is knowing
there's a chance the other half might come

(that's the psychedelic part)

you can't hide you dig'n me
when i play songs for you
you know that i'm happy that it's true
ah but when you catch me wish'n
that my hands were wondering
oh baby please excuse me
because i really must confess
i'm digging why i'm doing
but i'd rather play upon your breast

now you don't have to be afraid
now go ahead and take to me
all i really wanna do is have a little fun with you
and maybe i can turn you on
to Loudon Wainwright too
and if you get comfortable
i might lay you on a shady green

and you can tell me 'bout college
and i'll can tell how it was to be free
