

They Take It

Doot do do do
doot do do do
doot do do do
a doot do do do
doot do do do
doot do do do
doot do do do
doot do do do
doot do do do
doot do do do
doot do do do
doot do do do

prices rose again this week
pay a little more
for a good night's sleep
everyone knows the old boss man
will lay it on you when he can

they take it from you
take it from me
don't care where they get it from
it don't take much to see
they take it from you
take it from me
don't care where they get it from
it don't take much to see

it's true one tenth of the world is rich
one in a mansion nine in a ditch
you're work'n hard
to keep em in that house
they're work'n hard to keep you out

they take it from you
take it from me
don't care where they get it from
it don't take much to see
they take it from you
take it from me
don't care where they get it from
it don't take much to see

so you get a little stronger
cause you got to be strong
and hang on a little a little longer
cause you got to hang on

when they take it from you
take it from me
don't care where they get it from
it don't take much to see

i went to work and i got my check
the boss man said i owed him back
people oughta rise right up and sing
there ain't no way to change a thing

they take it from you
take it from me
don't care where they get it from
it don't take much to see
they take it from you
take it from me
don't care where they get it from
it don't take much to see

Doot do do do
a doot do do do
a doot do do do
a doot do do do

they take it from you
take it from me
a doot do do do
they take it away

they take it from you
take it from me
doot do do do
they take it away

they take it from you
they take it from me
a doot do do do
they take it away

they take it from you
take it from me
a doot do do do
they take it away
