

Let's Drink, Let's Dance, Let's Rock

You're string here looking so sad  
All alone boyfriend gone  
Hey baby don't take it so bad  
Let me buy a drink  
So what do you think  
Let's drink

Let's have fun  
Come on we'll see the rising sun  
We'll show em, we'll show em, we'll show em how it's done  
We'll get lost in the crowd  
Up by the band where the music is loud  
We'll show em, we'll show em, we'll show em how it's done

Hey baby, tell me what you want to do  
The night is calling out to me and you  
Hey baby the time is feeling right  
I'm so glad tonight is Friday night  
My heart is filled up with romance  
I got money in my jeans  
Before this night is over we'll find out what a big time means  
Oh let's dance dance dance

Woke up this morning and I felt so tired  
Useless and uninspired  
So open up honey and let me in  
You can make me feel young again  
Let's rock come on baby let's rock  
Help me loosen up the pistons in this old block
