

Love Shines Bright

Who's that mac standing in the john crying out
Love shines bright tonight
All hung up with his whole life hanging out
Love shines bright tonight
Maybe little sister is right next door
Writing words on the wall she didn't know before
Love shines bright
Yeah love shines bright tonight

There's a great big bad motorcycle man feeling sharp
Love shines bright tonight
He hits his girl with a silver chain in the dark
Love shines bright tonight
He doesn't stop until she's a bloody mess
He just loves like that I guess
Love shines bright
Yeah love shines bright tonight

Pittsburg, Mobile, Birmingham, any town
Love shines bright tonight
The hubcaps, big wheels, all hands tapping in the till
Love shines bright tonight
From the street side hustle to the steps of city hall
The big and the little all answer to the call
Love shines bright
Yeah love shines bright tonight
