

Secret Life

I've got a lot going on in my secret life
Got a great big house and five or ten secret wives
One of the best collections of rare guitars
With millions tucked away in vintage cars
Millionaire
Ain't no doubt about it
Not a care
Ain't no need to shout it
I've got time

I'm a very passionate lover in my secret life
Yeah the ladies long to hold me through the day and night
And I never have a problem when it comes to money
I got enough for me and you too honey
Super star
You can see me shining
Near and far
My reputation climbing
The world is mine

Sometimes I wish everyone could know how good it feels
Then again sometimes I wish my secret life was real
With the best of everything at my command
Just a snap of the fingers and the whole world is in my hand
Secret life
Man you got to try it
Secret life
But there ain't on way to buy it
I feel fine
