

## Buzzin' Fly

Just like a buzzin' fly  
I'll come in to your life  
Then I'll float away like honey in the sun  
Was it right or wrong  
I couldn't sing that song anyway  
Oh but darlin' now I remember  
How the sun shone down  
And how it warmed you pretty young smile  
When all the love was there

You're the one I talk about  
You're the one I think about  
Everywhere I go  
Sometimes honey in the morning  
I miss you so  
I miss you so  
And that's how I know I found a home  
That's how I know I found a home

Hear the mountains singing  
Lord I can feel them ringing  
Burling out your name  
Ah tell me if you know  
Just how that river flows  
Down to the sea  
I want to know  
Everything about you  
I wanna know  
What makes you smile  
What makes you wild  
What makes you love me this way  
I wanna know I wanna know

You're the one I talk about  
You're the one I think about  
Everywhere I go  
Sometimes honey in the morning  
I miss you so  
I miss you so  
Yea that's how I know I found a home  
Yea that's how I know I found a home

Walking hand in hand  
All along the sand  
Seabird knew your name  
It knew your love was growing  
Lord I think it knows it flowin'  
Through you and me  
Ah tell me darlin' you don't wanna leave me  
Ah tell me darlin' you don't wanna leave

You're the one I talk about  
You're the one I think about  
Everywhere I go  
Sometimes honey in the morning  
I miss you so  
I miss you so  
And that's how I know I found a home  
Yea that's how I know I found a home

Just like a buzzin' fly  
I'll come in to your life  
Then I'll float away like honey in the sun  
Was it right or wrong  
I couldn't sing that song anyway  
Oh but darlin' now I remember  
How the sun shone down  
And how it warmed you pretty young smile  
When all the love was there

You're the one I talk about  
You're the one I think about  
Everywhere I go  
Sometimes honey in the morning  
I miss you so  
I miss you so

Oh mama I miss you so now  
Hey I miss you so  
I miss you so  
I miss you so
