

Didn't I love To

Didn't I love to love you baby
Didn't I love to hold you tight
Oh oh remember
That cold New York night
All alone in your room
You held me with all your might
Didn't I love to love you
Didn't I love to hold you tight

History don't make the news
And everybody is free to choose
I made my choice but every now and then
I think of how it was back when
Didn't I love to love you baby
Didn't I love to hold you tight
Well

Didn't I love to love you baby
Didn't I love to hold you tight

Every day I have a part to play
I do my best and I make my way
Sometimes it hits me right out if the blue
I can't help but think about you
Didn't I love to love you baby
Didn't I love to hold you tight

Didn't I love to love you baby
Didn't I love to hold you tight
Oh oh remember
That cold New York City night
All alone in your bedroom baby
You held me with all your might
Didn't I love to love you
Oh didn't I love to hold you tight

Oo yeah
