

Glowin' In The Dark

You better paint and power baby
We're step'n out tonight
I gotta little money baby
We're gonna do it right
We'll eat drink dance to the beat
Way out in that bright spotlight

In the dark
Glowin' in the dark

You know I been think'n baby
I been work'n way too hard
I believe a little burn'n down might
Help me out in this regard
We'll sing songs we don't know
And laugh until we fall down in the yard

In the dark
Glowin' in the dark

Before we ever go home baby
The dogs are gonna bark
Before we ever make it home
We're gonna make out mark
We'll shout sing jump and scream
And dance until we're glowin' in the dark

In the dark
Glowin' in the dark
In the dark
Glowin' in the dark
In the dark
In the dark
