

## I Was Right About You

If there's seven kinds of trouble  
A man goes through  
Then I knew them all  
Before I met you  
I never missed an opportunity  
If I could do it the wrong way  
Leave to me until you

I was right about you  
And when you took me by the hand  
You made me a better man  
You I was right about you  
And if I ever loose my way  
I can still look back and say  
I was right about you

It's nothing I'm proud of  
I know it ain't cool  
But I got to tell you  
I been a fool  
Then I got lucky when you came along  
For once in my life  
I know I'm not wrong about you

I was right about you  
And when you took me by the hand  
You made me a better man  
You I was right about you  
And if I ever loose my way  
I can still look back and say  
I was right about you

I was ready to give t up  
And be just a name and number  
I could be counted on to fall  
Until you gave me your all  
And save me from going under

Oh you I was right about you

I was ready to give t up  
And be just a name and number  
I could be counted on to fall  
Until you gave me your all  
And save me from going under

I was right about you  
And when you took me by the hand  
You made me a better man  
You I was right about you  
And if I ever loose my way  
I can still look back and say  
I was right about you

Oh you  
I was right about you  
And if I ever loose my way  
I can still look back and say  
I was right about you  
I was right about you  
I was right about you
