

Tall And Lean

I was in a movie in Tokyo Japan
Maybe you've seen me if you're a
Tokyo Japan movie fan
A lot of people told me they saw that movie
They said I wasn't any good
Well I never said that I could do it
I just did the best I could

Like I was tall and lean

Will you come see me
I been miss'n you the most
I try to forget you
But I can't give up the ghost
All of those bad times there a dime a dozen
Everybody knows
If you come back to me
My heart'll be buzz'n
There won't be no fuss'n anymore

I'll be so tall and lean

If you come back to me
Oh baby don't you see
I won't be sad and blue
If I can be with you

As I write this letter
My heart is in your hands
If it made you happy
Then you've helped an empty man
I'll drink a little coffee as I try to finish
And write the closing line
If I could feel you breathe
My blues would diminish
I'm your as always

Tall and lean
Tall and lean
Tall and lean
Tall and lean
Tall and lean
