

Think About Love

Well listen to you talk'n when there's no-one around
Look at you dance'n when you can't hear a sound
There must be something pretty good going around
In your head

I heard you going off about the president
Rattling on about the money he sent
I wonder if there's a good time to be spent
In your bed

Do you don't you ever think about love
A good fight is that all you're ever thinking of

Do you don't you ever think about love
A good fight is that all you're ever thinking of

You're puff'n puff'n puff'n on that cigarette
You wouldn't be so nervous if you could forget
About the world's problems long enough to let your hair
down

Everybody else is having such a good time
Strolling by the ocean drinking sparkling wine
Um let me take you with me we could have a good time
I swear

Do you don't you ever think about love
A good fight is that all you're ever thinking of
Do you don't you ever think about love
A good fight is that all you're ever thinking of
Do you don't you ever think about love

Do you don't you ever think about love
