

Too Close On The First Date

The junior Senator took the floor
He said man this bill is great
The older members said sit down boy you're
Too close on the first date
Too close on the first date

The new secretary was happy to work
She left the old girls in her wake
Friday afternoon she was taken aside they said
Too close on the first date
Too close on the first date

Way down in Brazil they burn alcohol
And all the cars are running great
Exxon says it's a good idea just
Too close on the first date
Too close on the first date

All the young beaus are doing just fine
Till they go and find themselves a mate
And then the older folks come back with line about
Too close on the first date
Too close on the first date
