

Trash

In line at the super market store
Can't check out unless we get some more
Got to find out what Brooke's been doing
Got to find out where Mick's been screwing around

Trash I just love that stuff
Trash I just get enough

You can make a million and not pay tax
French doctor finds cure for heart attacks
A lady in Nebraska looses forty-seven pounds
In one day with that miracle diet that's been going around

Trash I just love that stuff
Trash I just get enough

See what Cher had on
Learn intimate secrets about Ted and Joan
Did Liz leave Dick behind
You can satisfy your inquiring mind

Trash
Trash

If you gotta half a dollar put 'er there
And then slide on down in your easy chair
Forget about the troubles that are on your mind
For every bodies else that you find in

Trash I just love that stuff
Trash I just get enough
Trash I just love that stuff
Trash I just get enough
Trash I just love that stuff
Trash I just get enough
Trash I just love that stuff
Trash I just get enough
