

Turning 19

You finally got your motor running
And now you're gonna have some fun at last
And you don't have to be so cunning
There isn't anybody to sneak past
You've waited so long
And tonight's the night you're turning 19

Now you can go to all the parties
Ain't nobody gonna say a thing
Do anything your ever wanted
Fool around and drink till you turn green
Tonight is something and
All because you're turning 19

Now you don't have to talk about it
You know you're everybody's teenage queen
You know there ain't a doubt about it
All the young fellows know what I mean
This time is your time and
Tonight's the night you're turning 19

The time is coming and it's high time you are turning 19
Turning 19
1 9 I mean
You're 19
You're 19
