

When I Close My Eyes

Deep inside my heart is a love for you
That won't ever die
And when we're apart and I miss your love'n
I just close my eyes
And I remember all the good times
And I can almost hear the sweet lines

When I close my eyes
Right away I have you with me
And my spirits rise
And my thoughts have a mind all their own
And they won't ever let me be alone

And the new year comes so I make my big plans
For the millions it'll bring
But the days roll on and I find myself
Doing the same old things
So if that part of life don't go right
I know the other side is alright

When I close my eyes
Right away I have you with me
And my spirits rise
And my thoughts have a mind all their own
And they won't ever let me be alone

When I close my eyes
When I close my eyes
When I close my eyes
