

All I Know

I've lived long enough to know I don't know what I think
About where we come from or where we're going
Some folks think if you don't think
The same thing that they do
Whatever you think ain't even worth knowing

The scientific evidence would lead you to believe
Long ago somewhere something went bang
And the only time religions ever seem to all agree
Is when they say that theory is insane

All I know
We're all in this together
All I know
We're not so far apart
We're good enough to do the things
That make the whole world better
Don't you think it's time we start

We can teach the children how to be good or be bad
And the difference from one and the other
We can find a way to build a better killing bomb
Or find a way to live with one another

All I know
We're all in this together
All I know
We're not so far apart
We strong enough to do the things
That make the whole world better
Don't you think it's time

All I know
We're all in this together
All I know
We're not so far apart
We know enough to do the things
That make the whole world better
Don't you think it's time
Don't you think it's time
Don't you think it's time we start
