

Take Me Take Me

Take me take me
In your heart tonight
Help me think these things I say are right
In the morning I am northern bound
With a bag of dreams
To a cold hard town
Take me take me in your heart tonight

Make me feel like
I'll see you again
Let's pretend we're happy like old friends
Make believe there is nothing wrong
Though the time's too short
For a love so strong
Take me take me in your heart tonight

It's an easy thing
To say you're leaving
I know
I've done it everywhere I've been
But in the morning we will know the truth
And it makes me wanna cry out
What's the use
Take me take me in your heart tonight

It's an easy thing
To say you're leaving
I know
I've done it everywhere I've been
But in the morning we will know the truth
And it makes me wanna shout out
What's the use
Take me take me in your heart tonight
Take me take me in your heart tonight
