

## It Just Don't Get No Better Than This

the brush of your hand  
softly on my shoulder  
on a warm springtime day  
the way you whisper in my ear  
the words that only you can say

the kids out playing hide and seek  
as the sun goes sinking down a bit  
it might be where i'm standing  
but all i can think is it

chorus 1  
don't get no better than this  
don't you worry none about it  
ain't got no reason to doubt it  
it's just the way it is my miss  
and if the world falls to pieces  
and our trouble increases  
as long as our love never ceases  
it just don't get no  
better than this

the way that you look  
underneath the moonlight  
makes me lose track of time  
and when you turn your eyes my way  
i swear i hear our two hearts rhyme

and we'll have Sunday with our friends  
tossing horseshoes and cooking in a pit  
that may not seem like much to some  
but brother i'll say that it

chorus 2  
don't get no better than this  
it feels so good i wanna shout it  
don't know how people live without it  
must be something they get i miss  
through the crevasses and creases  
no matter what some he or she says  
i'll love you till my soul releases  
cause it just don't get no better than this

bridge  
it will get different  
nothing stays the same  
there's only two things  
for certain  
everything will change  
and baby  
it just don't get no better than this
