

Wake Up Sleepy Head

Sunrise is coming it's six o'clock
the buzzer is buzz'n and it ain't gonna stop
what ever you're dreaming it matters not
the morning is waiting just give it a shot

wake up sleepy head
can't lay there forever pretending you're dead
this world is bigger than your queen size bed
wake up sleepy head

the warm towel treatment
is waiting for you
strawberries and muffins
and Swiss mocha brew
the shower is just right to jump into
open your eyes is all you gotta do

wake up sleepy head
can't lay there forever pretending you're dead
this world is bigger than your queen size bed
wake up sleepy head

solo

wake up sleepy head
can't lay there forever pretending you're dead
this world is bigger than your queen size bed
wake up sleepy head
